*Retouched Images = refers to images edited with tools for object removal, blemish removal, smoothing skin, and further enhancing ever-present features. Retouched images maintain a more glamorous look.*

*\*JTCA does not offer retouching services to liquify or 'nip & tuck', as it does not align with their brand values of positive body image and transparency. JTCA endeavours to respectfully retouch impermanent features in an image and in a manner that maintains the integrity of the subjects' natural features and qualities.*
